

Public Health Policy for the Nova Scotia Skills Competition

Public Health Policy

APPLIES TO

EMPLOYEES, BOARD OF DIRECTORS, VOLUNTEERS, EXTERNAL PARTICIPANTS

POLICY

SCNS adheres to public health guidelines and recommendations in addition to following protocols of host venues. As such, we recommend that employees be vaccinated against public health risks and follow personal protective measures to ensure the safety of our colleagues, participants, and volunteers.

If an employee feels unwell, SCNS encourages staff to connect with their supervisor and limit their exposure until they are well or no longer contagious. If participants, attendees, Board members, or volunteers feel unwell, we request they not participate in SCNS events or activities until well or no longer contagious.
